CONSERVATIVE STRENGTH

It is most gratifying to observe from time to time, as each by-election takes place the first acquisitions to the strength of the Conservative party, and the approval by the people of its principles and its leadership.

The following statement will show the probable strength of the House at the commencement of the coming session:—

	Government.	Opposition.
Ontario	53	41
Quebec	32	33
Nova Scotia	14	5
New Brunswick	13	3
B. C., Man. & N. W.	14	1
P. E. Island	2	4
	128	87

This gives the party a good working majority of 41, which with the present indications may be still increased.

Such manifestations convince us that the general policy of the Conservative party has been progressive and judicious, and inspired by a faith in our country, its capabilities and resources.

The policy of the Government in making large expenditure in the building of our railways and canals, and in developing our great and fertile North West, it is pleasing to observe, meets with the approval of all true Canadians.

The general policy of the party seems to be so fully in accord with the interests, aims, and aspirations of the people, that neither the decease of its great leader, nor the loss of some of the lukewarmness of others, will disturb its foundations.

The proposed acts and measures of the Reform party have been too full of uncertainty and contradiction. Its policy, if such their varying platform may be termed, is too vacillating. Its leaders, at variance with each other on some of the most serious questions of the day, especially in regard to the fiscal policy, have formulated no platform to command our attention and support.

Such a party, so constituted and supported, with dissident leaders and followers, many of whom are inimical to our laws and institutions could not properly govern our young and growing country, or win the approval of loyal Canadians.

The new Cabinet, which has just been constructed, will add further strength to the administration. The members and their portfolios are as follows:—

FROM ONTARIO.
 The Hon. Mackenzie Bowell (Military and Defence) John Carling (Agriculture) John Haggart (Railways) J. C. Paterson (Sec'y. of State) Frank Smith (without Portfolio).

FROM QUEBEC.
 The Hon. J. J. C. Abbott (Premier) J. A. Chapleau (Customs) J. A. Ouimet (Public Works) Sir A. Caron (P. M. General.)

FROM THE MARITIME PROVINCES.
 The Hon. J. Costigan (Inland Rev.) G. Foster (Finance) Sir John Thompson (Justice) Charles R. Tupper (Fisheries.)

FROM THE NORTH WEST TERRITORIES.
 The Hon. E. Dewdney (Interior).
 It will be observed that Manitoba and British Columbia are without representation in the Cabinet.

THE EDUCATIONAL DOLLAR.

We live in a land where dollars abound, and where people do not withhold them from good enterprises. We live in the Territories, whose annual expenditure for education has reached the sum of over \$90,000.

This large sum is what we desire to specialize as the Educational dollar. Given by the people or the State, it is to serve a noble purpose ere it becomes again the people's dollar.

It is the annuity of the commonwealth to her children, designed to bless both her that gives, and them that receive.

The number entitled to its direct benefit is large. It has built for them schoolhouses, many of them large and durable; all a guarantee of faith in the permanence and value of our Educational system.

Can it be possible that the Educational dollar comes back to us mutilated, shorn of its power, or diverted from its purpose?

Take first the ungraded schools wherein the sons and daughters of our rural population assemble. A dozen or so of younger pupils begin the term, a few to be prompt and regular, more to be otherwise, one by one the boys and girls come dropping in as herding cattle turning sheaves, or picking potatoes permit. How few of these gain the knowledge necessary for good citizenship, or go to avail themselves of the advantage of the graded school?

Here they find an improvement in organization, a division of labor by larger grouping, a more intelligent supervision, better opportunities, and usually better instruction.

Yet the very provisions of the graded school course often disappoint those they are intended to benefit. Much of the work is outlined to conform to an ideal rather than to a real set of circumstances. It presupposes an amount of schooling which very few of those who attend can undertake. And again, a very great lack in our schools is that of training. In the haste to reach the *numm bonum* of the average boy or girl, or the average boy or girl's parents—to 'take out' a certificate, the importance of the way in which the child works, or fails to work, is forgotten. By training we mean the education of mind to correct and vigorous action; training to form habit that shall be an unconscious power for good, as well as a conscious aid to effort; training in self-control, self-reliance, and patriotism. These are the things the pupil needs, and the educational dollar fails in its mission if he does not get them.

THE NEW BOARD OF EDUCATION.

The appointment of two teachers to positions on the Board of Education is a step in the right direction. Mr. W. J. Chisholm B. A., of Regina, and Mr. A. H. Smith B. A., of Moosomin, have been appointed to fill the positions made vacant by Messrs. Whitmore and Secord.

Education is still in an embryo state in the North West. The system has been largely copied from those of older provinces. And while it is well to profit by the experience of the eastern provinces by incorporating into our educational system any useful points, let us be careful that we do not incorporate any abuses.

There is no longer any necessity for having the personnel of the Board made up exclusively of lawyers and ministers. There was a time in the history of the Territories when they were the best men that could be obtained. That time has gone by.

The "New Education" has a firm foothold in our schools. Normal training is insisted upon, the teachers are teachers more than in name alone, and we look upon the late appointments as heralding a new era in education.

EDITORIAL NOTES.

The February number of the *Manitoba*, the Winnipeg magazine, is out and contains much interesting matter. Among the contributions this month are "Leaders of Religious Thought in Britain," by Rev. Hugh Poley; another instalment of the Red River expedition of 1870; "An Arctic Landscape," by Zan Thorne; an article on British Columbia Sites and a story of the Arctic regions by Lieut. Schwatka.

The construction of the English language must appear most formidable to a foreigner. One of them looking at a picture of a number of vessels said: "See what a flock of ships!" He was told that a flock of ships was called a fleet, and that a flock of sheep was called a flock.

And it was added for his guidance in mastering the intricacies of our language that "a flock of girls is called a bevy, and a bevy of wolves is called a pack, and a pack of thieves is called a gang, and a gang of angels is called a host, and a host of porpoises is called a shoal, and a shoal of buffaloes is called a herd, and a herd of children is called a troop, and a troop of part-ridges is called a convey, and a convey of beauties is called a galaxy, and a galaxy of ruffians is called a horde, and a horde of rubbish is called a heap, and a heap of oxen is called a drove, and a drove of blackguards is called a mob, and a mob of whales is called a school, and a school of worshippers is called a congregation, and a congregation of engineers is called a corps, and a corps of robbers is called a band, and a band of locusts is called a swarm, and a swarm of people is called a crowd."

It has been a time honored custom among newspapers in Eastern Canada to come out each year with an annual serpent story. This chestnut having got hoary, each paper now has its "Indian Scare." The people of Ontario were informed last week that a blood thirsty uprising had occurred on the Blackfoot Reserve near MeLeod. Another report had it that the Indians in the neighborhood of Moose Jaw were walking around with 'chips on their shoulders.'

How doth the busy Editor
 Improve each shining minute,
 And gather 'copy' all the day
 To prove the whites 'ain't in it.
 Let 'ooons' delight to cut and slash,
 In every slight affray,
 Let Scandalousians use the knife,
 For they are built that way.
 But Red Men you should never give
 Your angry passions air,
 Your hunting knives were never made
 To lift the white man's hair.

A post card has recently been received by a gentleman in town addressed:

Moose Jaw,
 Assiniboia,
 British Columbia.

This is a fair sample of the ignorance that prevails with regard to the geography of our country. Letters are frequently received from England addressed: Canada, United States. A lady in England writing to her son at Portage la Prairie says: "Your old school mate J— has just sailed for Toronto, and it will be so nice for you to slip down on Saturday evenings so as to spend Sunday with him."

The *Western Missionary* in speaking of the annual report of a Moose Jaw Congregation says, "Well done Moosejaw"—and moreover, Moose Jaw is spelled with a small "j". We will let this pass, just this once, but the next time we find the name of our town spelled in this way, in the columns of the paper in question, "Down goes its apple-cart."

The inhabitants of Rat Portage have met in convention and have decided that the name "Rat Portage" is good enough for them. What's in a name, anyway!

Another instance is amusing. A gentleman in the 'Ould sod' writing to a friend in Montreal addresses his letter

The Men at the Farmers' Dinner.

Space would not permit us last week, to give a description of the spread prepared by nine hostesses of the Ottawa Hotel, on the occasion of the Farmers' Dinner on Feb. 17th. Mr. J. L. J. reputation as a caterer is so good, that no words of ours would add to it. The menu on the occasion in question was excellent and would do credit to many an eastern hotel.

Returning to Moose Jaw.

English as she is spoke.

Recently the Massey Harris Implement company, after sending many "dunning" letters to a delinquent German, wrote him a sharp note threatening suit if he did not settle up. The firm received in reply an interesting document of which the following is an exact reproduction:—"Please don't make those expenses suit me. Soon nine vater-in-law have from Russia in May come already, and when he was got here after a little while he will some gold bring. If mine vater-in-law have the gold not yet brought soon, den I will pay you. Den I will for one Englishman work all the time, pretty soon keevick."—Winnipeg Free Press.

North West School Grants.

Much uncertainty and dissatisfaction has arisen among teachers over the working of the new school ordinance as regards grants, many fearing the new system would result in a direct cutting down of salaries and this fear was heightened by the fact that the ordinance mentions \$300 as the outside amount on which the government grant would be paid to a third class teacher. It appears that there is no intention whatever to limit salaries to that amount, as the new system will not result in any general cutting down. It will merely even up salaries, and schools where efficient work is being done will be placed on a more favorable footing. The Regina school will draw under the new system \$3,241, an increase of \$122.50, under the old system; the Calgary public school will draw \$2,489.50, being \$60.50 less than under the old system; Moose Jaw draws \$104.25 less, Broadway draws \$23.50 more, Red Deer Hill, a summer school, will draw \$25.25 less. The schools most affected will be Catholic separate schools, where excessive salaries have been paid. In one case a lady teacher in a separate school received \$125 per month, or \$1,500 per year.

Social.

A social under the auspices of the Girls' Guild of St. John the Baptist Church, will be held in Russell Hall on Tuesday March 1st. A good programme is being prepared.

Report of the Fire Relief Fund.

At the time of the late fire, among the heaviest sufferers was the family of Mr. James Hood. A subscription list was immediately started for the relief of the family, and was generous response to it by the town-people, especially by the C. P. R. families residing in town. The subscription was placed in the hands of Mr. Wm. Hannah, and accounts audited by Mr. Seymour Green. The result is as follows:—Cash received by Mr. Wm. Hannah, \$111.50; Cash Expended:—J. Hood, \$25; Work on building \$6.95; H. McDougall, material, \$14.57; E. A. Baker & Co., 65 cts.; J. T. Simpson, \$15.15; Fuel etc., \$11.25; Total \$103.57; Balance \$7.93. I hereby certify that I have this 25th day of February, 1892, examined the subscription list from Mr. Wm. Hannah's hands, also all receipts and vouchers, and find the above statement to be correct.

A CORRECTION.

To the Editor of THE TIMES.

Dear Sir,—In looking over your article in last issue on the "Farmers Meeting" I notice you give me credit for producing a new wheat, a cross between Ludoga and Red Fife.

Permit me to say that Professor Saunders, the Director of Experimental Farms is the originator of several Hybrid wheats, one of which I showed at the Meeting giving credit to Prof. Saunders as the originator and not myself.

Another slight error I would like you to correct is relating to smut. Instead of recommending 1 lb blue stone to 10 bushels wheat, I advise 1 lb. to 5 bush, where seed is smutty, that treatment giving the best results last year. Where seed is free or almost free from smut 1 lb. to 10 bushels is ample. Yours very truly, ANGUS MCKAY.
